System

# SHIPDECK JOINT

## Visual and practical

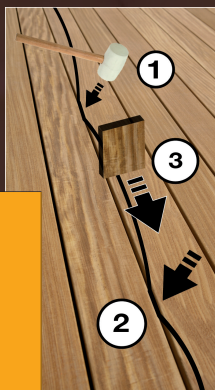

- » No extra maintenance required - treat decking as usual
- » Fast & easy installation
- » Can be removed and reinstalled anytime
- » Uniform spacing between the boards.

## No more dirt and debris between deck boards

## Ultra-fast installation in 3 steps

1 - 2 - Push in the joint strip in 2 spots thanks to the rubber-hammer

3 - Make the joint strip even thanks to a wooden wedge sliding along all the length between the 2 spots

Can be used with the following **Softline**<sup>®</sup> timber species:

- » Afrormosia
- » Merbau
- » Padouk
- » Teak

*without joint strip*

*with joint strip*
